

## BOSCH PIM875N14E Logixx 80cm Ring Induction Hob (Black)

<b>Brand</b>	Bosch
<b>EAN Number</b>	4242002669137
<b>Hob Type</b>	Induction

Enjoy fast, precision cooking with the Bosch PIM875N14E Electric Induction Hob featuring five powerful cooking zones.

Induction power

Easier to clean and more energy efficient, induction hobs offer a faster, more accurate way to cook.

The PIM875N14E features 17 power levels for each individual cooking zone, to give you greater control.

The front mounted touch controls make it easy to set and adjust the power so you can go from a fast boil to a slow simmer in seconds.

### PowerBoost

With five cooking zones, the PIM875N14E is great for entertaining or big family dinners.

The PowerBoost function is an added feature, which increases the power output by 50% for even faster heat up times.

### Safety features

For added peace of mind the PIM875N14E has a 2-stage residual heat display, which provides a clear indication of when a zone is still hot after it's been turned off. 'H' means it's still hot enough to cook with, while 'h' means it's still hot enough for caution.

What's more, there's also a child lock function and a timer with automatic switch-off for all zones.

With automatic pan recognition and fast heat up times, take the guesswork out of cooking with the Bosch PIM875N14E Electric Induction Hob.
